

LOCATION OF SCIENCE MATERIALS

Behind Science Lab 251

- Cleaning station
- Glassware
- FOSS Brain
- Fridge-preserved specimens or science products only
- Scopes for repair
- Plastic measuring and storage containers
- Incubator and live animal housing (see admin. for regulations)
- Moveable carts for temporary lab setup
- Manila locked storage cabinet with data projector and safety goggles

In Science Lab 251

(lab pros)

Behind Science Lab 252

- Food products
- FOSS yearly rotation (Weather and Water, Diversity Of Life, Populations and Ecosystems)
- Filing cabinets with old units-Current Science magazines
- Teacher work table
- Bunson burners, ring stands and tubing
- 2 Electronic balances and other varieties
- Dissection materials
- Measuring sticks, wheels and scales
- FOSS Electronics

In Science Lab 252

(Tall cabinet for current FOSS)

Between Science Lab 252 & 253

- Chemicals
- Skeleton model
- Textbook carts
- All science textbooks, teachers' editions, supplemental resources
- Test papers (litmus, filter)

Behind Science Lab 253

- Upham supplies
- Human body supplies (some models in showcases)
- Geology supplies
- Forces supplies
- Teacher work table
- Science Olympiad materials (3 shelves)

In Science Lab 253

Behind Science Lab 254

- Mathematics storage
- Electronics supplies (also magnetizer, Van de Graff)
- Cleaning station
- Manila locked storage cabinet with data projector, flexcam, and scopecam parts (see shared file for instructions)
- Light banks and materials for fast plants

In Science Lab 254

T.V.
VCR (2-3 total)
2 computers
1 AV cart, OH projector , and screen
7-9 scopes
Fire safety blanket and shower
Dust pan and broom
Lab signout clipboard
