---

---

---

---

---

---

---

### Preparing to Build your Web Site

- Gather materials
  - Syllabus for all courses
  - Additional course handouts
  - URLs (web addresses) to online resources
- Convert Word documents to PDFs
  - PDF is the preferred option for viewing and sharing documents
    - More secure
    - Easily accessible
    - Compact size
- Images
  - Edit and/or crop
  - Reduce file size, if possible
    - Thumbnails - 100kb or less (preview version)
    - Enlarged - 1mb or less

Photo Editing software is  
available in the EDC

---

---

---

---

---

---

---

### Sample MSTC Faculty Web Sites

Sites that use the current template

- [Cindy Sebastiani](#)
- [Sarah Huibregtse](#)
- [EDC Web Site Training Intranet Site](#)

Sites that use an older version of the template

- [Melissa Nash](#)
- [Anne Dyken](#)
- [Kathy Trachte](#)
- [Sandi Taucher](#) (single page)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

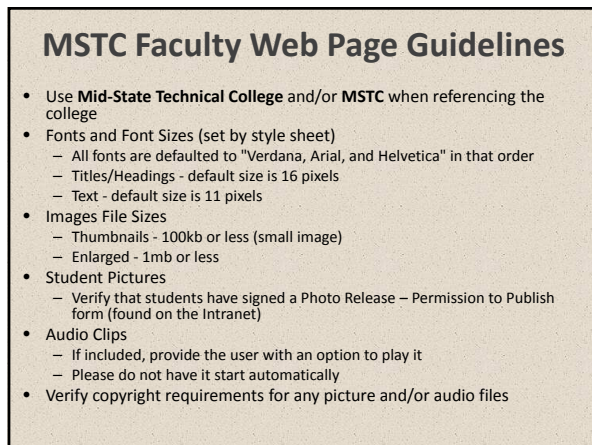

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## Standard Web Page Design Tips

- Use web safe colors
- Ensure foreground colors **contrast** well with background colors
- When specifying fonts, always include a generic, font type in case the user computer doesn't have your font
- Limit to 2-3 fonts
- Limit to 3-4 font sizes
- Use GIFs and JPGs files appropriately
- Provide **alternate text** for image maps (**accessibility requirement**)
  - This is the text that appears when you hover over the image
- Don't use too many images
- Reuse images within a web site
- Give pages within a web site a **consistent appearance** (use template)
- Include width and height attributes for all images
- Use **thumbnails** to allow users to preview large images
- View your page in a browser with images turned off
- Avoid large amounts of unnecessary white space except on the outside margins

from Creating Web Pages with HTML and XHTML, by Patrick Carey, pages 159-160, Course Technology, 2006

---

---

---

---

---

---

---

---

---

---

## Z: Drive Folder & File Organization

- Keep files organized
- Create a folder for each course
- Avoid spaces or symbols in file names
  - Underscores are commonly used
- Use PDFs to share documents, unless it needs to be edited
- Remove unused and/or unlinked files
  - Stored files are still accessible and searchable via the Internet

---

---

---

---

---

---

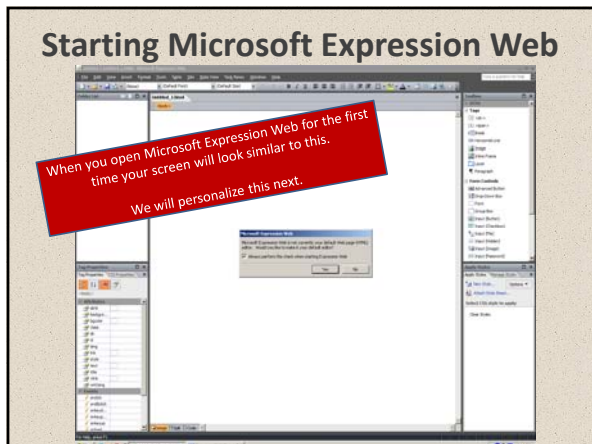

---

---

---

---

## Starting Microsoft Expression Web

---

---

---

---

---

---

---

---

---

---

## Starting Microsoft Expression Web

The first time you open Expression Web you will receive two pop-up windows

- Uncheck the box for the first one and click **No**
  - This prevents this pop-up from appearing every time you open Expression Web

---

---

---

---

---

---

---

---

## Starting Microsoft Expression Web

- Click **OK** for the second pop-up

---

---

---

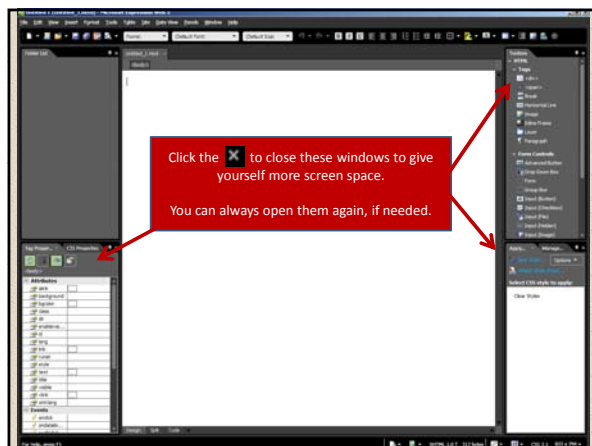

---

---

---

---

---

---

---

---

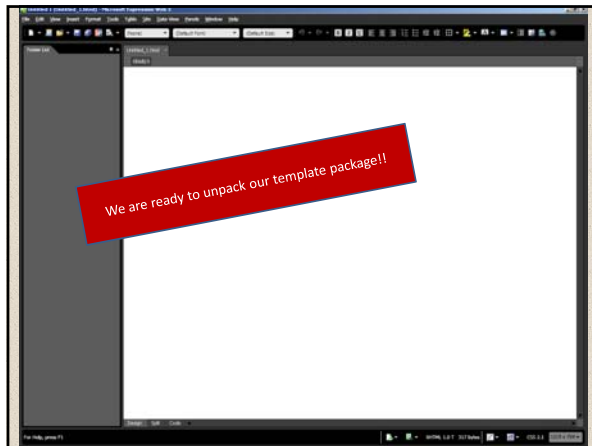

---

---

---

---

---

---

---

---

---

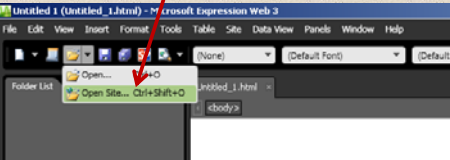

---

---

---

---

### Open Your Site (Z: Drive)

- Click on the dropdown arrow next to the open folder
 
- select **Open Site...**

---

---

---

---

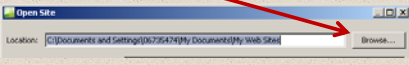

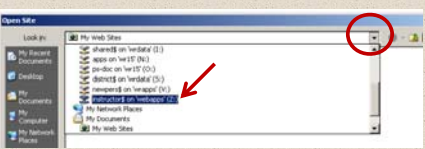

---

---

---

---

### Open Your Site (Z: Drive)

- Click the **Browse...** button
 
- From the Look in dropdown select **"instructor\$ on 'webapps' (Z:)"**

---

---

---

---

---

---

---

---

## Open Your Site (Z: Drive)

- Single click your Web Site folder
- Click **Open**

---

---

---

---

---

---

---

---

## Open Your Site (Z: Drive)

- Your **Z: Drive** is now the Site Location
- By default the "Add to managed list" will be checked
  - Change the **Name** of your site for future reference, if necessary
  - This option makes it quick and easy to access your site the next time you open Expression Web
- Click **Open**

---

---

---

---

---

---

---

---

## Open Your Site (Z: Drive)

- Your **Web Folder** will now display in the following locations:
    - Folder List
    - Site View Window
- Note that at this point your folder will most likely be empty!

---

---

---

---

---

---

---

---

## Open Faculty Web Template Package

All the necessary files for you to begin your MSTC Faculty Web Site have been packaged for you. Let us unpack them...

- Click **Site** on the menu bar
- Hover over **Import**
- Select **Import from Web Package...**

---

---

---

---

---

---

---

---

## Open Faculty Web Template Package

- Select the **S: Drive** from the dropdown

- Navigate to the **WebTemplate.tem** folder

---

---

---

---

---

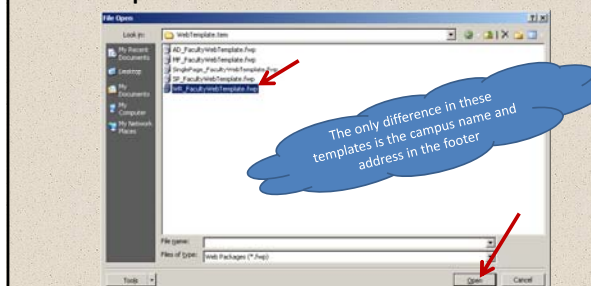

---

---

---

## Open Faculty Web Template Package

- Select the package (\*\*\_FacultyWebTemplate.fwp) file for your campus location
- Click **Open**

---

---

---

---

---

---

---

---

## Open Faculty Web Template Package

- The Import Web Package pop-up will appear
- Click **Import**

---

---

---

---

---

---

---

---

## Open Faculty Web Template Package

- Click **Run** for the Security Warning

- When the package is ready click **OK**

---

---

---

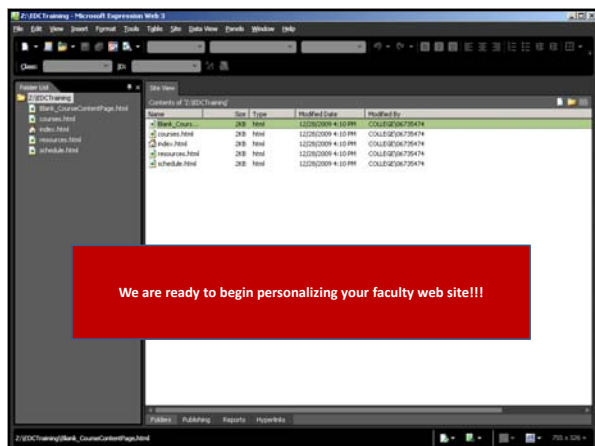

---

---

---

---

---

---

---

---

---

---

---

---

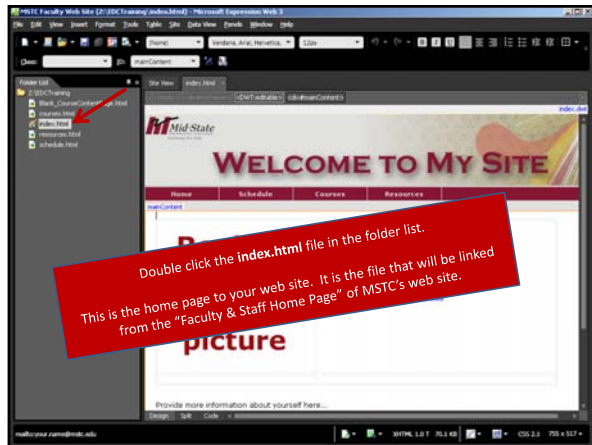

---

## Faculty Web Site Files

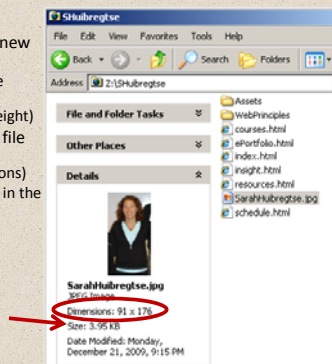

The Faculty Web Template package includes the following files:

- index.html
  - Home/default web page
- schedule.html
  - A table has been added for you to use or you can copy and paste your schedule from another document
- courses.html
  - Great place to list the courses you teach and provide links to your syllabus, course information, PDF and Word files, web resources, etc.
- resources.html
  - Place for you to provide additional resources and/or links
- Blank\_CourseContentPage.html
  - This page is provided for you to create separate pages for courses
  - Rename the file to match your course title and/or number

## Replace the Picture

- Find the dimensions of your new image
  - Write these down for future reference
  - Mine is 91 x 176 (width x height)
- Verify the size of your image file
  - Mine is 3.95 KB (located below the dimensions)
  - We have software available in the EDC to help reduce the size
- MSTC Image Size Guidelines
  - Thumbnails - 100kb or less
  - Enlarged - 1mb or less

## Replace the Picture

- Right click the **image**
- Select **Picture Properties...**

To add a new picture

- Click **Insert** the menu bar
- Select **Picture**
- Click **From File...**

---

---

---

---

---

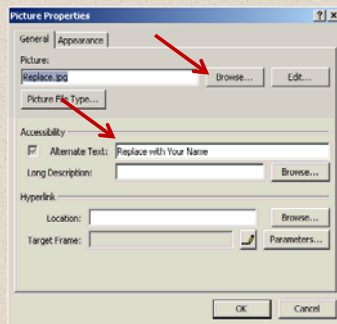

---

---

---

## Replace the Picture

- **Browse** to your picture on the Z: Drive
- Add **Alternate Text**
  - this is the text that displays when you hover over the image
- Click **OK**
- Click the resizing handles to adjust the display size of your picture as needed

---

---

---

---

---

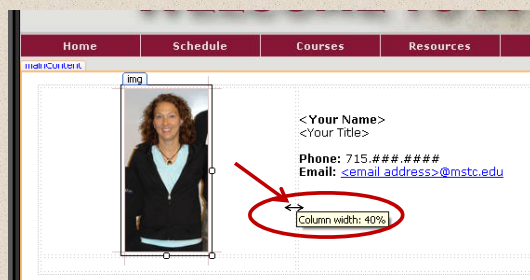

---

---

---

## Adjust the Column Width

- Drag the dotted line to adjust the column width to better align your picture and text

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

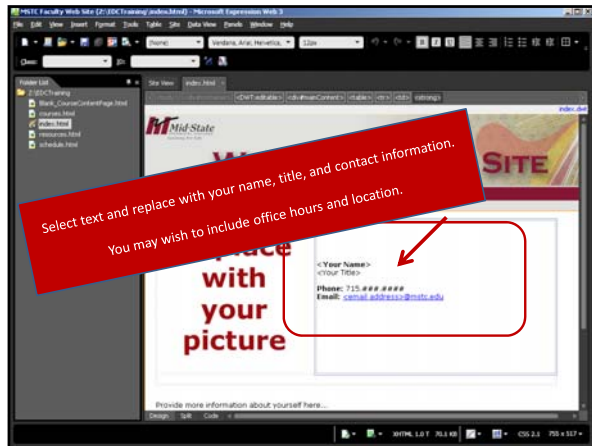

---

---

---

---

---

---

---

---

---

---

---

---

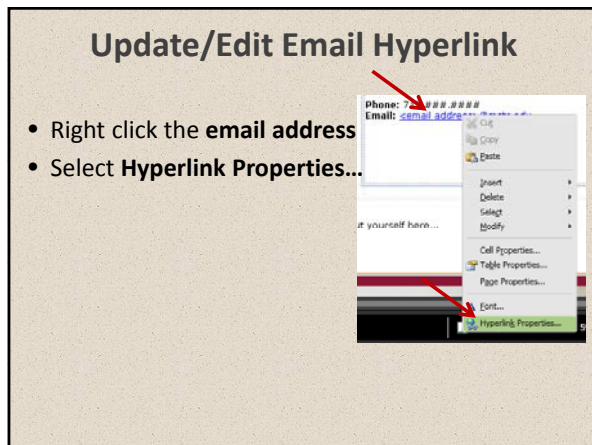

---

---

---

---

---

---

---

---

---

## Add "About Me" Information

- You may wish to include information about your background and experience below
 
- Common pieces of information included
  - Education
  - Teaching and/or work experience
  - Courses taught
  - Certifications
  - Professional Interests
  - Favorite quotes
  - Information about family, hobbies, interests, etc.
    - be careful about how much personal information you share
- Try to make content general enough, so you aren't required to update it regularly

---

---

---

---

---

---

---

---

## Don't Forget to SAVE Often!!!

- The asterisk lets you know that you haven't saved your web page
 
- To save do **ONE** of the following
  - Click the **Save** icon 
  - Press **CTRL + the letter "S"**
  - Click the **Save All** icon 
  - Click **File** on the menu bar and select
    - Save
    - Save As...
    - or Save All

---

---

---

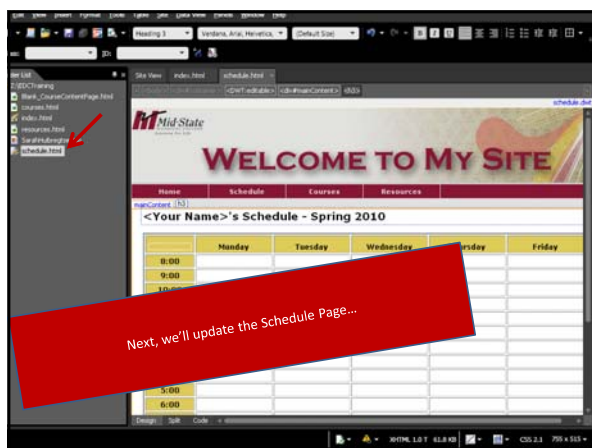

---

---

---

---

---

Next, we'll update the Schedule Page...

---

---

---

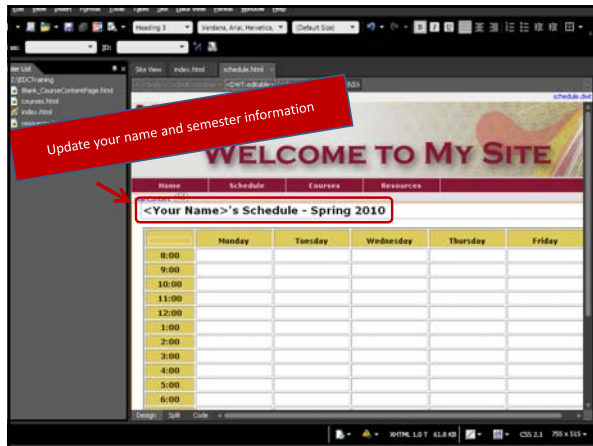

---

---

---

---

---

---

---

---

---

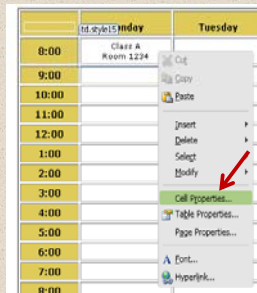

---

---

## Adding Your Schedule

The table features of Expression Web works similar to those in Microsoft Word

- Type your text in a field
- Right click in the cell and select **Cell Properties...**

---

---

---

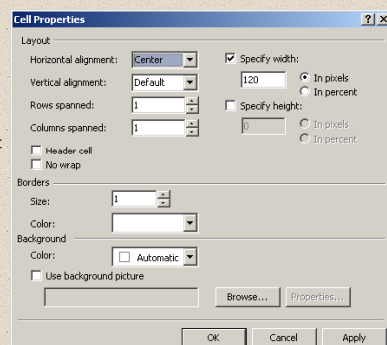

---

---

---

## Adding Your Schedule

- Adjust the properties as needed. Common changes include
  - Horizontal alignment
  - Vertical alignment
  - No wrap
  - Background Color (see next slides)

---

---

---

---

---

---

## Adding Your Schedule

- To change the Background color of a cell
- Right click the cell and select **Cell Properties...**
- Click the dropdown under **Background Color** and select **More Colors...**

---

---

---

---

---

---

---

---

## Adding Your Schedule

- Select an available color
- Click **OK**

OR....

---

---

---

---

---

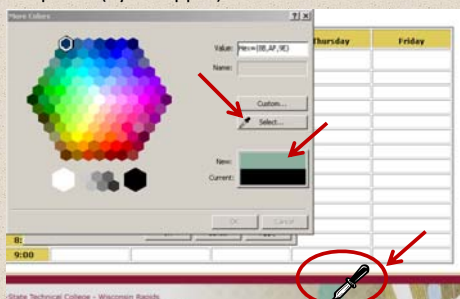

---

---

---

## Adding Your Schedule

- Click the **Select** button
- Use available images to select a new color with the color picker (eye dropper)

---

---

---

---

---

---

---

---

## Have you SAVED lately?

- The asterisk lets you know that you haven't saved your web page
- To save do **ONE** of the following
  - Click the **Save** icon
  - Press **CTRL + the letter "S"**
  - Click the **Save All** icon
  - Click **File** on the menu bar and select
    - Save
    - Save As...
    - or Save All

---

---

---

---

---

---

---

---

For your Courses page you will need to follow the same steps that we have for our other pages.

---

---

---

---

---

---

---

---

This page is for any additional resources that you'd like to make available to your students.

---

---

---

---

---

---

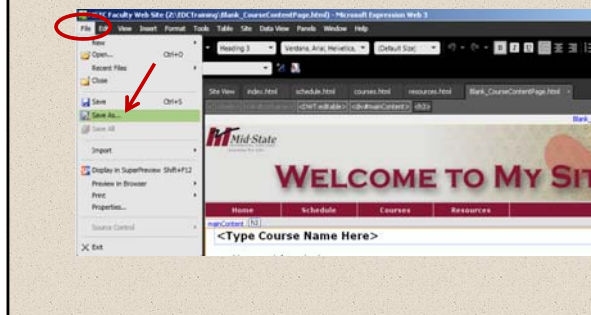

---

---

## Creating Course Web Pages

- Click **File** and select **Save As...**

---

---

---

---

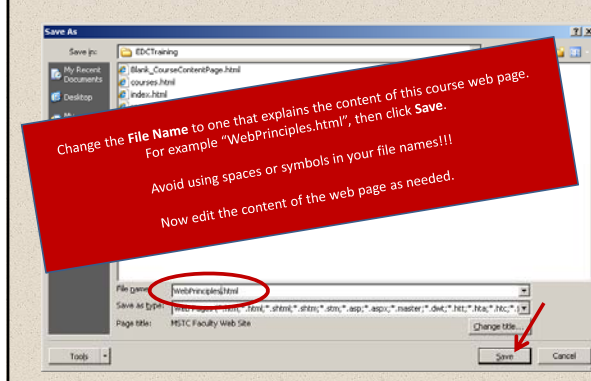

---

---

---

---

## Creating Course Web Pages

---

---

---

---

---

---

---

---

## Additional How-To Directions

- Expression Web Toolbars Explained
- Add a Hyperlink
- Apply the available CSS Styles
- Setting Picture Properties

---

---

---

---

---

---

---

---

## Expression Web Toolbars Explained

### Menu Bar

File Edit View Insert Format Tools Table Site Data View Panels Window Help

### Toolbar Options

- New Document
- New Site
- Open Site
- Save
- Save All
- Display in Super Preview
- Preview in Internet Explorer

---

---

---

---

---

---

---

---

## Expression Web Toolbars Explained

Heading 3 Vendors, Arial, Helvetica, (Default Font)

Style Font Font Size

- Undo
- Redo
- Bold
- Italic
- Underline
- Align Text Left
- Center
- Align Text Right
- Numbering
- Bullets
- Decrease Indent Position
- Increase Indent Position

---

---

---

---

---

---

---

---

## Create a New Hyperlink

- Select Text to be hyperlinked
- Right click
- Select **Hyperlink**
- Select the file or type in the web Address
- The “Text to display” will be automatically filled in with the highlighted text
- Click **OK**

---

---

---

---

---

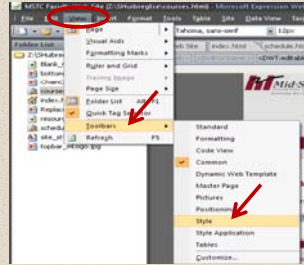

---

---

---

### Apply Available CSS Styles

- To display the **Style Toolbar** click **View** on the menu bar
- Hover over **Toolbars**
- Select **Style**

---

---

---

---

---

---

---

---

### Apply Available CSS Styles

- Highlight the text you would like to format
- Click the **ID** dropdown arrow
- Select one of the available Styles

The rest of the available styles are used for the template.  
Please contact Sarah Huibregtse if you are interested in learning how to create your own styles.

---

---

---

---

---

---

---

---

### Apply Available CSS Styles

- The available Styles appear as follows

- The **title** style makes text appear like "Additional Resources"
- The **headings** style makes the text appear like "Web Page Design Tips"
- The **text** style makes the text appear like "from Creating Web Pages..."

---

---

---

---

---

---

---

---

## Apply Available CSS Styles

- If you apply the same style multiple times on your web page you will receive the following message

- Check the box if you wish to not receive the warning message again
- Click **Yes** to apply the style

---

---

---

---

---

---

---

---

## Setting Picture Properties

### Wrapping Style

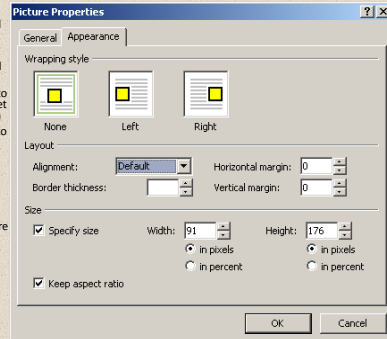

- Sets how the text will flow around the image

### Layout Options

- Alignment** – sets how the text will align on the side of the image
- Border thickness** – if you choose to have a border (zero needs to be set if you are hyper linking the image)
- Horizontal margin** – white space to the left and right of the image
- Vertical margin** – white space on the top and bottom of the image

### Size

- Specify size** allows you to adjust the actual size of the image
- Keep aspect ratio** keeps the picture at the appropriate proportions as you enlarge or shrink your image
- Width and Height** allows you to change the size of your image by pixels or percent

---

---

---

---

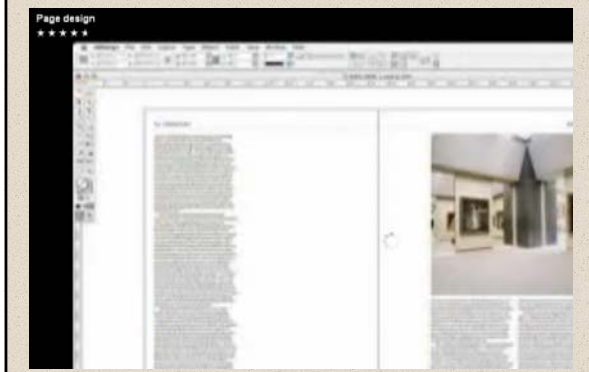

---

---

---

---

## Experiment As You Setup Your Pages

---

---

---

---

---

---

---

---

## SAVE, SAVE, SAVE!!!

- The asterisk lets you know that you haven't saved your web page

- To save do **ONE** of the following

- Click the **Save** icon
- Press **CTRL** + the letter **"S"**
- Click the **Save All** icon
- Click **File** on the menu bar and select
  - Save**
  - Save As...**
  - or **Save All**

---

---

---

---

---

---

---

---
